

Kamil Iwaniak

Personal profile

I am a fourth-year Computer Science in Environmental Protection student at the Lodz University of Technology. I am passionate about IT, especially web and game development. I aim to grow professionally in creative roles related to design and development. Outside of IT, I'm dedicated to physical activity and hold a certified personal trainer qualification, reflecting my discipline and drive to push beyond comfort zone. I constantly seek new challenges and currently expanding my knowledge in UX, game design and C++ language.
